

How to play the Dice/Card game(s)...

- 1) A player throws a die & picks a card. If the player has thrown 2-6, s/he must say that number of items following card category e.g. 4 things in a park: swings, kids, trees, flowers. If player throws 1, then change direction of next player & throw again to get 2-6.
- 2) Guess the category. A player picks a card & says items in the given category; others have to guess the category.
- 3) Like "Stadt, Land, Fluß" – pick 3 category cards. All players write these down as a list on left side of paper. Across top (horizontally) choose & write up to (fewer for lower level) 5 letters so it looks sth. like this grid :

	A	E	I	O	U
Round things				orange	umbrella
Things in the park		edge	insects		umbrella
Things in the car	Air con	equipment	insects	On- button	umbrella

Players then fill in the grid and score accordingly:

10 points if no other player has the same answers

5 points if others have the same

0 for 0

Tips:

1) print out & cut out set 1 (pre int) & stick on back of set 2 (intermed. - printed on other coloured paper) before laminating & cutting out. Result = double sided.

2) keep cards in ziploc bag

Have fun & cheerio!
